* Pending CMS approval

Future Collaboration

- Continued Measure Development
- Expanding the QCDR Measure Set
- Benchmarking Across TPF Community
- Implement Median/ABC
- Improve MIPS Score (e.g. Specialized Registry Reporting)

Innovating Together

- Daily Huddle Report
- Gaps @ the Point-of-Care
- Virtual Groups
- High-Performance ACO
- Chronic Care Management
- Collaboration Tools
- Practice Transformation Best Practices

Backup Slides

Clinigence VIP Benefits

Clinicians

- Real-Time Reports
- Just-in-Time Gaps at the point of care

Administrators

- Comprehensive QI Tools
- Quick & Easy Root Cause Analysis
- Visual Outlier Analysis
- Indisputable, Auditable Reports

Executives

- Real-Time Organizational Performance Monitoring
- Live in a Few Weeks
- EHR Vendor Independence

Core Questions Answered

Clinicians

“What do I need to do right now for this patient to improve quality?”

Administrators

“How is my practice doing on this program/measure?”

“Which of my providers need help?”

Executives

“How are we doing on cost and quality?”

“What can we do to improve?”

**30%
